Options

<i>Option Pack Extended</i>	
<i>Quality Control</i>	<i>Reports color difference (Delta E) statistics to assess the accuracy of printed colors to an expected color values.</i>
Production Features:	
<i>Job Cost Calculation</i>	<i>The Job Costing / Job Cost Estimation calculates the ink, material, and printer cost per Job.</i>
<i>Job Tickets</i>	<i>Job Tickets are HTML Documents containing all relevant information about a job.</i>
<i>Job Processing Policies</i>	<i>The Job Processing Policies allow you to setup processing rules and settings for preflight, printing and job archiving.</i>
<i>Job Preflight</i>	<i>Preflight Feature allows creating hard and soft proofs.</i>
<i>HotFolder</i>	<i>Capability to create hot folders for batch printing of jobs with the same printer and cutter settings.</i>
1 RIPServer	<i>1 RIPServer. Performs the raster and ripping process for a single job at a time.</i>
2 RIPServers	<i>2 RIPServers. Performs the raster and ripping process for up to two jobs at a time.</i>
4 RIPServers	<i>4 RIPServers. Performs the raster and ripping process for four jobs at a time.</i>
1 PrintClient	<i>1 PrintClient. Controls the transfer of ripped jobs to a single printer.</i>
2 PrintClients	<i>2 PrintClients. Controls the transfer of ripped jobs for up to two printers.</i>
4 PrintClients	<i>4 PrintClients. Controls the transfer of ripped jobs for four printers.</i>
Repeat Print (Print without Gap)	<i>Prints multiple copies of a job without a visible printed gap between each copy.</i>
Seam Extension	<i>Mirrors all image margins to a specified size to create a seam.</i>
Separation Print	<i>Creates separation jobs. Creates color separation of the imported images automatically. Individual angle, shape, frequency, dot gain curve and separation profile.</i>
ErgoSoft Variable Data	<i>Creates a special image template which allows printing multiple copies of a specific design with personalized text or consecutive numbers.</i>
Color Books/D65 Support	<i>Generates printable color book jobs defined either in RGB dimensions or in Lab slices. / Supports additional D65 Illumination Standard.</i>
Multink	<i>Provides option in Print Environment to setup custom ink assignments with same ink in different channel Slots.</i>
Step & Repeat	<i>Permits importing a pattern or image and repeat it several times in the vertical and horizontal directions with options for mirroring and shifting pattern.</i>
ColorCombine	<i>Allows an image created with multiple grayscale or bitmap layers or separations to be imported and colored.</i>
ColorGPS 4 Colors	<i>Color Profile Creation Tool that creates color profiles for RGB and CMYK color printers.</i>
ColorGPS 6 Colors	<i>Color Profile Creation Tool that creates color profiles for RGB and CMYK+2 color printers.</i>
ColorGPS 8 Colors	<i>Color Profile Creation Tool that creates color profiles for RGB and CMYK+4 color printers.</i>
Advanced Features	<i>Provides additional color tools for profile contrast, gamut mapping parameters and color intensity with ColorGPS.</i>
Cut: Roll	<i>Allows direct cutting of jobs from Job Composer. Includes all roll cutter drivers.</i>
Cut: Flatbed	<i>Provides option for cutting for Flatbed systems with cut marks. Includes all flatbed cutter drivers.</i>
1 CutClient	<i>1 CutClient. Controls the transfer of ripped jobs to a single cutter.</i>
2 CutClients	<i>2 CutClients. Controls the transfer of ripped jobs for up to two cutters.</i>
4 CutClients	<i>4 CutClients. Controls the transfer of ripped jobs for four cutters.</i>
